NEWS RELEASE

ARIZONA MINING ANNOUNCES AGM RESULTS

Vancouver, B.C., April 22, 2016 – Arizona Mining Inc. (TSX: AZ) (“Arizona Mining” or the “Company”) is pleased to report the results from its 2016 annual general and special meeting of shareholders held on April 22, 2016. Shareholders voted in favour of all items put forward by the Board of Directors and management.

Each of the nominees listed in Arizona Mining’s Management Information Circular dated March 21, 2016 was elected as a director. A summary of the results is as follows:

Name of Nominee	Votes For	%	Votes Withheld/Abstain	%
James K. Gowans	74,633,477	98.28	1,304,782	1.72
Poonum Puri	75,694,760	99.68	243,499	0.32
Donald R. Siemens	74,591,229	98.23	1,347,030	1.77
Donald R. Taylor	74,578,084	98.21	1,360,175	1.79
Robert P. Wares	75,711,654	99.70	226,605	0.30
Richard W. Warke	74,551,622	98.17	1,386,637	1.83

Shareholders also voted in favour of resolutions approving: a) the acquisition of the 20% of the Hermosa Project that the Company does not currently own (99.46% excluding shares held by related parties); b) two private placements to directors and/or officers of the Company for gross proceeds of \$551,740 (99.49% and 99.45% excluding shares held by insiders); and c) the re-appointment of PriceWaterhouseCoopers LLP, Chartered Accountants, as auditors of the Company for the ensuing year and authorized directors to fix their remuneration (99.81%).

About Arizona Mining

Arizona Mining Inc. is a Canadian mineral exploration and development company focused on the exploration and development of its 80% owned Hermosa Project located in Santa Cruz County, Arizona. The Company has entered into an agreement to acquire the remaining 20% interest in the Hermosa Project, which has now received the required shareholder approval. The Taylor Deposit, a lead-zinc-silver carbonate replacement deposit, has a resource of 39.4 million tonnes in the Inferred Mineral Resource category grading 11% zinc equivalent (“ZnEq”) utilizing a 6% ZnEq cutoff grade calculated in accordance with NI 43-101 guidelines. The Taylor Deposit remains open to the north, west and south over land controlled by the Company and will be aggressively drilled to test the limits of the resource. The Company recently completed metallurgical test work on drill core from the Taylor Deposit that projects overall recoveries of 92.9% Pb; 85.5% Zn and 91% Ag using industry standard froth flotation processing technology. The Company’s other project on the Hermosa property

is the Central Deposit, a silver-manganese manto oxide development project that has a prefeasibility study completed in December 2013.

Cautionary Note Regarding Forward-Looking Information

Certain information contained in this press release constitutes forward-looking statements. All statements, other than statements of historical facts, are forward looking statements including statements with respect to the Company's intentions for its Hermosa project in Arizona, USA including. Forward-looking statements are often, but not always, identified by the use of words such as may, will, seek, anticipate, believe, plan, estimate, budget, schedule, forecast, project, expect, intend, or similar expressions.

The forward-looking statements are based on a number of assumptions which, while considered reasonable by Arizona Mining, are subject to risks and uncertainties. In addition to the assumptions herein, these assumptions include the assumptions described in Arizona Mining's management's discussion and analysis for the year ended December 31, 2014 ("MD&A"). Arizona Mining cautions readers that forward-looking statements involve and are subject to known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to differ materially from those expressed in or implied by such forward-looking statements and forward-looking statements are not guarantees of future results, performance or achievement. These risks, uncertainties and factors include general business, economic, competitive, political, regulatory and social uncertainties; actual results of exploration activities and economic evaluations; fluctuations in currency exchange rates; changes in project parameters; changes in costs, including labour, infrastructure, operating and production costs; future prices of zinc, lead, silver and other minerals; variations of mineral grade or recovery rates; operating or technical difficulties in connection with exploration, development or mining activities, including the failure of plant, equipment or processes to operate as anticipated; delays in completion of exploration, development or construction activities; changes in government legislation and regulation; the ability to maintain and renew existing licenses and permits or obtain required licenses and permits in a timely manner; the ability to obtain financing on acceptable terms in a timely manner; contests over title to properties; employee relations and shortages of skilled personnel and contractors; the speculative nature of, and the risks involved in, the exploration, development and mining business; and the factors discussed in the section entitled "Risks and Uncertainties" in the MD&A.

Although Arizona Mining has attempted to identify important risks, uncertainties and other factors that could cause actual performance, achievements, actions, events, results or conditions to differ materially from those expressed in or implied by the forward-looking information, there may be other risks, uncertainties and other factors that cause performance, achievements, actions, events, results or conditions to differ from those anticipated, estimated or intended. Unless otherwise indicated, forward-looking statements contained herein are as of the date hereof and Arizona Mining disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by applicable law.
