Forward-looking statements are provided for the purpose of presenting information about management's current expectations and plans relating to the future and readers are cautioned that such statements may not be appropriate for other purposes. The use of any of the words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "should", "believe", "plans", "intends" or the negative of such terms and similar expressions are intended to identify forward-looking statements or information. More particularly and without limitation, this news release contains forward-looking statements and information concerning the timing and anticipated receipt of the final order of the Supreme Court of British Columbia in respect of the Arrangement, and the ability of Arizona Mining and South32 to satisfy the other conditions to the completion of the Arrangement.

In respect of the forward-looking statements and information concerning the anticipated timing for completion of the Arrangement, Arizona Mining has provided such information in reliance on certain assumptions that management believes are reasonable at this time, including assumptions as to the ability of the Company and South32 to receive the final order of the Supreme Court of British Columbia in respect of the Arrangement, and the ability of Company and South32 to satisfy, in a timely manner, the other conditions to the completion of the Arrangement. The anticipated dates provided may change for a number of reasons, including the inability to secure the final order of the Supreme Court of British Columbia in the time assumed or the need for additional time to satisfy the other conditions to the completion of the Arrangement. Accordingly, readers should not place undue reliance on the forward-looking statements and information contained in this news release.

Risks and uncertainties inherent in the nature of the Arrangement include the failure of Arizona Mining and South32 to satisfy the conditions to the completion of the Arrangement in a timely manner, or at all. Failure to satisfy the conditions to the completion of the Arrangement, may result in the Arrangement not being completed on the proposed terms, or at all.

In addition, if the Arrangement is not completed, and Arizona Mining continues as an independent entity, there are risks that the announcement of the Arrangement and the dedication of substantial resources by the Company to the completion of Arrangement could have an impact on the Company's current business relationships (including with future and prospective employees, suppliers and partners) and could have a material adverse effect on the current and future operations, financial condition and prospects of the Company.

Shareholders are cautioned that the foregoing list of risks and factors is not exhaustive. Additional information on other risks and factors that could affect the operations or financial results of Arizona Mining and the timing of the completion of the Arrangement are included in reports filed by the Company with applicable securities regulatory authorities and the management information circular prepared in connection with the Meeting, which are available under the Company's issuer profile at www.sedar.com.
